Missouri Weekly Hay Summary - Week ending 03/23/2018

The official arrival of spring came this week but warmer temperatures to really get plants and grasses growing quickly has yet to arrive. Fertilizer buggies are finding use although many farmers are having to watch and avoid wet spots now or risk getting stuck. The latest drought monitor shows only 9 percent of the state officially in drought status with a touch over 44 percent is still abnormally dry. Hay business currently seems to be a story of two extremes with very little middle ground both on supplies and demand. This isn't entirely unusual as the feeding season draws to a close but the differences in each situation is very drastic this year. Hay supplies are light to moderate, demand is moderate and prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or for a directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 180.00-250.00
 Small squares 6.50-8.00 per bale
 Premium quality Alfalfa (RFV 170-180) 160.00-200.00
